

Wimborne Minster Model Town Motor Drive Board – Veroboard Layout

- Notes:
1. Refer to associated circuit diagrams for details of the interconnections within each area.
 2. All tracks under the HIP4082IPZ IC and the should be cut using a spot face cutter.
 3. Cut the tracks between the H-Bridge and Motor Drives areas, except where shown.
 4. Diagram shows the component side of the board. Tracks are shown for clarity.
 5. Board Pin Nos (in Green) are used to identify Board I/O paths on the Circuit Diagram.
